HYGIENIZING

BIO

CELL

Model	Number of head	Overall dimensions (mm)	Mixing motor power (kW)
HBC 500	300 – 700	2700 x 2700 x 3000	5,5
HBC 1000	800 – 1500	2700 x 2700 x 4700	6,7
HBC 2500	2000 - 3000	4100 x 4100 x 4300	10,7

Innovative livestock farming system

HBC is an automatic system able to hygienize the separated solid of manure, for an easy and safe use as bedding for dairy cows. Dry matter % and Production (Capacity) can be decided by the customer and it is also possible to reach a true pasteurization of the material. The flexibility and absolute certainty that only hygienized product is produced, gives the highest safety with separated solid bedding and consequently an increased milk quality .

Transforming slurry into comfortable and hygienic bedding

Eliminate straw

Significant savings

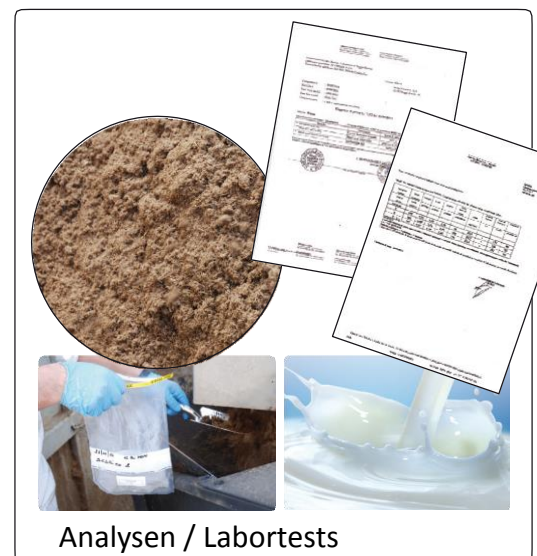

Healthy cows

Healthy milk

ADVANTAGES:

- Cost savings
- Daily use
- Consistent quality
- Easy to use
- Remote control option
- Improved, more economic management of slurry
- Low energy consumption
- No additional storage requirement
- Extremely limited overall dimension
- Record track
